NEWSLETTER

VOLUME 23 - ISSUE 02

APRIL - 2023

Dear Readers,

Ramadan Kareem Mubarak!

May Almighty give you all the prosperity, success and bless you with happiness, wealth, give you a healthy life and peace of mind. Ramadan is Islam's holy month, it is one of the five pillars of Islam. Ramadan is observed by Muslims worldwide as a month of fasting, prayer, reflection and community and many Muslims donate a larger portion of their yearly Zakat during this month.

Zakat is also one of the most important pillars of Islam. It is a religious obligation for all Muslims who meet the necessary criteria to donate a certain portion of their wealth each year to charitable causes. It is said to purify yearly earnings that are over and above what is required to provide individuals and their families with their essential needs. Last year, at MESCO we utilized the zakat and other general donations given by our donors through different schemes. 4184 Educational Scholarships were provided to the deserving students, 519 Medical Aid was given to needy patients, 403 underprivileged families were supported through monthly ration and 97 needy women were empowered by giving sewing machines.

At MESCO we help people irrespective of their caste, creed and gender, when we work for the new or push ourselves ahead in search of fulfilment and change, we do so in a collective progress. We walk with the energy of our donors, well wishers, committee members and volunteers and then add our own. We, in turn, become mediums of what's possible. On this platform we take this opportunity to thank all our donors and well-wishers for their continuous support through their generous donations and we would also like to thank all our volunteers and committee members for their constant encouragement and unconditional support and guidance.

We are honoured to announce the publication of the April 2023 newsletter of MESCO. It is well known that what is not measured cannot be improved. In this newsletter of MESCO, we have tried to make some contribution to its improvement, and in the hope that this newsletter will become a useful document for you to know the activities of MESCO that happened in the previous quarter.
